It is to be regretted that Mr. Dawson could not so attend; but a etter from him assures our people that he will yet be here and address them.

The meetings held this week in our county have generally been well attended, and those in the evening, especially, have been very large. F. P. Randall, Esq., after he learned the inability of Mr. Dawson to fill his appointments, attended all the meetings to apologize for Mr Dawson, and vindicate the principles of the party. Mr. Randall is doing good service and we hope he will continue until the election, or at least until Mr. Dawson can visit us.

The little town clique, composed of Turner, Ruffher, McCornick, and about as many more soreheads, who have been engaged most of the time since our Democratic County Convention was held in endeavoring to create the impression that the nominations were not satisfactory to the party, have most signally failed in creating the least sympathy. Even the more respectable portion of the opposite party utterly refuse to vote their ticket, or even to act with them, and a very large portion of them will vote our ticket this

Under this rule the Democrats in Congress have favored the application of Mannesota and O. egon, and they will do the same by Kansas and an other political communities that are to be organ-

not admitted by the Democratic party and by a Democratic Congress No trouble or deflicalty is to be anticipated from that organization. Its whole history proves that it can be taken fo me But can the Republicans be trusted? While they not, in the next Congress, rote against against Minnesota and Oregon ? While, theoretically, they are great friends of free States practically they have been very unreliable. The ecord of the Southern Democrats is better for the interests of freedom than theirs. With the single and remarkable exception of California, the opposition to the admission of new States has never come from the South. It has invariably been at the North and confined to the opponents of the Democracy.—Cin Eng.

Congressional Canvass in this County .-Owing to the illness of Mrs. Dawson, and a misunderstanding about his appointments in Elkhart County, Mr. Dawson has been unable to fill his appointments in this county, in company with the democratic candidates for the different county offices this week. It is to be regretted that Mr. Dawson could not so attend; but a etter from him assures our people that he will

yet be here and address them. The meetings held this week in our county have generally been well attended, and those in the evening, especially, have been very large. F. P. Randall, Esq., after he learned the inability of Mr. Dawson to fill his appointments, attended all the meetings to apologize for Mr Dawson, and vindicate the principles of the party. Mr. Randall is doing good service and we hope he will continue until the election, or at least until Mr. Dawson can visit us.

It is well known that great numbers of poor and vicious people from other parts come here and become a public charge This cannot be avoided, unless we would let them starve, which we presume the most rabid economist would not advocate The number of criminals kept in our jail, from the same reason, is unusually large and subjects us to heavy expenses, which could only be avoided by letting them run at large, which we do not suppose even those who say the

most about extravagance would dare to recommend. Our courts are another heavy expense which must be borne, and the railroad tax must be paid, until such time as the dividends on our stock will meet the interest on our bonds. We have so many streams in the county which must be bridged, that large expenditures are necessary; unless we would cut off all communication between different parts of the county. For thes expenditures the county officers are not to blame -they cannot do otherwise than they have. The other expenses of the county, which are more particularly under their control, will be found on comparison, not to be higher than in most other

Another charge, but totally without foundaion, is the large sums paid to individuals for superintending the building and repairing of bridges, ditching, &c. This is represented as being allowed those persons for their ecrvices and superintendence; althought it is well known

this is not the case; nearly all of these sums are for disbursements made by the superintender ts for labor, materials, &c. for the works under their charge. We will not do the gentleman making these charges the injustice to suppose that he is so ignorant as to imagine the allowances are pocketed by the agents, as he charges. He knows better, but he thinks it will do to gull those who have no opportunity of ascertaining the facts It is a piece of demagoguery that deserves the severest reprehension; and if the matter could be that even in politics, honesty is the best policy. Another Important Discovery. As the public are much excited at the present

time upon the Chinese sugar cape question, I propose to contribute my mite of experience Last spring I obtained three dollars' worth of seed and planted in rows four-feet apart; one kernel of seed every twelve to twenty inches, on one acre of dry loam soil, a part of which highly manured from my stable. I planted the seed May 19, and in about a week it came up On the manured ground it grew fast; the other very slow. The first named ripened its seed well; the other scarcely got into good dough. I purchased a sugar (crushing) mill of two iron rollers, five and a hait inches in diameter and fourteen inches long; had new gear-wheels east, both of a size to give equal motion to the rollers: then commenced grinding and boiling, and soon found that six gallons of juice would make one gallon of superior sirup. I then built a mill with wooden rol'ers, eighteen inches in diameter, and went at it in good earnest, and found that it now took eight gallons of juice to one of sirup. Upon investigating the cause, I found there were two juices, distinct from each other in the cane. viz: a crystallizable and an uncrystallizable cacharine juice. The iron rollers expressed both the wooden rollers only one. The juice run from the iron rollers granulated easily, while the juice from wooden rollers could scarcely be said to

I made from one acre of cane two hundred gallons of sirup, for which our merchants pay me, by the barrel, ninety cents per gallon. result may be summed up as follows: Rent of land /

Cost of seed Ploying of ground and planting One day's plowing cane Paid for labor in working Paid for word for boiling One iron mill One wooden mill Two kettles, forty and fifty gallons

Two hundred gallons sirup at pinety cents per gallon Leaving a net profit over every expense of \$83 50, from one acre of Chinese sugar-cane This is the experience of C. B. OSTRANDER, M. D.

Mrs. Daniel R. Mitchell, of Rome, Ga., has discovered that peach leaves are superior to hops for making yeast. The bread made from it is quite as light and equally well flavored. We understand that the yeast is made in the same way, except that dried peach leaves are used

New Remedy for an Old Disease .- M Heiminkx of Belgium claims to have devised a method of curing the itch in two hours, by means, of a solution of the sulphuret of calcium, prepared in the following manner: Take of flour of sulphur three ounces, quick lime six ounces water two pints; boil them together, and when they have decant them into hermetically stopped bottles Three and a half ounces a e sufficient to effect a cure. The patient is first well rubbed all over with soft soap for half an hour, and placed in a both of topid water for another half hour: he is then rubbed over with the solution of sulphuret for a quarter of an hour. The operation is completed by washing in the bath.

Cure for Baldness .- A medical journal says that the decection of box wood has been successful in cases of baldness. Four large handfuls of cheap. the stem and leaves of the garden box are boiled in three pints of water, in a closely covered vessel. for fitteen minutes, and allowed to stand in an earthen jar ten hours or more; the liquid is then strained, and one onnee and a half of colorne added, and with this solution the head is well washed every morning.

A correspondent of the Providence Journal says, that ninety nine cases, out, of every hundred, cranberries applied as a poultice wil effectually cure the crysipelas. There is not an instance known where it has failed to effect a cure when fuithfully applied before the sufferen was in a dying state. Two or three applications generally do the work.

The Hughes Printing Telegraph and the Atlantic Cable.—We have private advices from London, by the Vanderbiit, which state that Professor Hughes would have his machines in readiness to work the cab'e on or about the 8th instant, on which day the Atlantic Company expected to despatch a special steamer to Trinity Bay, with one of Professor Hughes' assistants on board. We may, therefore, hope to see the cable in dopplete working order on or about the 25th instant. In answer to the absurd theorizing of thermany persons who are dailing proving (to their own satisfaction) the impossibility of working the cable by the Hughes system, it is sufficient to say that with instruments hastily constructed, and in many respects very imperfer Prof Hughes has transmitted intelligence reliab'y and continuously through 2,900 miles of the atlantic telegraph cable. This was whilst the cal! was at Keyham. Since then about 2,200 miles of the same cable has been submerged between Ireland and Newfoundland: and with electrical results nearly fifty per cent: (so the Telegraph Company's electricians assert) more favorable than whilst it was colled at Keyham. Professor Hughes, ought to be presumed to know by this time the capacity of his own invention, and he says, unhesitatingly, that he can transmit intelligence through the cable, reliably and continuously, at the rate of from three to six words per minute.—New York Herald.

Getting on the Democratic Platform .- The following is an extract from a speech of Go Corwin at Republican meeting in Obio:

"If it be one of the dogmas of the Republicaparty that the people of a State have not a right te settle this question themselves, then I'am not a Republican. God help me, if that is so I can't help it. [A voice—Good!] I hold that a Territory which has the right to reject slavery. has a right to adopt it, if it will. I can't standup and say to the people, you have no right to ever used it, that I need not say anything on the sub make your own institutions. You have a right to come into the Union upon an equal footing with the rest of the States, and it is clearly impossible for them to do so under impositions restricting them to come in without slavery or to stap out altogether; and-if unhappily, Kansas shall wish to come into the Union with the blight of slavery in her constitution, clearly she has the

"If a State has the right to stay in thus, which has slavery, to send her Representatives to Conwhere do you get, the right to prohibit a State from coming in? If you can't turn out, you can't keep out. But I don't believe it ever was a principle of creed of our fathers to reject a State applying for admission with a constitution adopting slavery. That is good Democratic, popular sovereignty

doctrine. Corwin couldn't pass muster as a Republican in this District.

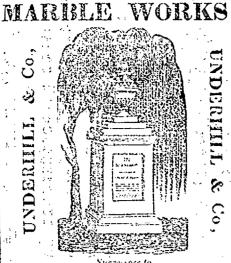

The Indian War in Oregon - We learn that Father de Smet has received a dispatch from Washington, requesting him to join General Harney, at New York, as chaplain to the army in Oregon Apart from all considerations of a religious or spiritual character, there is eminent propriety in the selection of Father de Smet for this position. It was he who first preached the doctrines of Christianity to the Northern Uitra-

montane Indians, and he is consequently regarded with especial reverence by those tribes who dwell in the country which is the theater of the Oregon Indian war. There can be no doubt that his joint when you revir irregularly of the bowols, and influence over them will facilitate the realization also, that most exercising of diseases, the of the purposes of the Government. In no part of Oregon is the "Big Black Gown" unknown or How many thousands of poor women are suffering unappreciated. His influence over the Blackfeet Nation, is supreme, and the Flathends and adjacent tribes are scarcely less submissive to his counsels. The Government has therefore consulted its own interests in his appointment to the chaplaincy of the Oregon army: It he shall not be able to array these and other tribes or the side of the authorities, he will at least scoure their neutrality. As we have observed, he is known among all the Indian nations in the territories of the United Stetes as the Big Black Gown; and from the banks of the Rio Grande to the banks of the Columbia, that title is recog-

nized. He will, therefore, be able to render important services in the pending campaign. St | 1 day. Louis Democrat. Tuesday. October 12th, is the day of
